Introduction

01

INTRODUCTION

1.1 Who We Are

Xbrain is a talent development company built by top technology experts from **AWS, Synaptix and TechX**, with a mission to support students, fresh graduates, and career switchers in building strong foundations and job-ready skills in **CloudOps and DevOps.**

Through structured training programs, hands-on labs, and real-world projects, Xbrain transforms emerging talent into world-class cloud and GenAI professionals, bridging the gap between academic learning and production-ready engineering. As TechX accelerates its GenAI, Data, and Security initiatives, Xbrain serves as the engine for capability building, shaping the next generation of technology leaders.

INTRODUCTION

1.2 Our Vision and Our Mission

Xbrain focuses on building strong foundations and practical capabilities in CloudOps, DevOps, and Generative AI, grounded in the belief that real expertise is shaped through hands-on experience and real-world application. Through structured training programs, immersive labs, and practical implementation, Xbrain prepares talent to operate confidently in production environments. Guided by experts from TechX, AWS, and Synaptix, our approach ensures that learning remains closely aligned with industry demand, operational readiness, and long-term workforce sustainability.

Our vision extends beyond talent development. Xbrain aims to contribute to the growth of Vietnam's high-quality digital workforce, strengthen the country's position in the global technology value chain, and support the adoption of advanced cloud and AI solutions across key industries. By doing so, Xbrain plays a vital role in enabling TechX's long-term regional expansion and the broader advancement of the technology ecosystem.

INTRODUCTION

1.3 Our Value

Practice-Driven Excellence

We build real expertise through hands-on experience, practical labs, and production-level challenges. Our programs focus on applied learning to ensure talent is truly job-ready.

Industry Alignment & Impact

Guided by experts from TechX, AWS, and Synaptix, we stay aligned with evolving industry needs. Our approach ensures operational relevance and contributes to a stronger digital workforce ecosystem.

Sustainable Talent Empowerment

We empower learners with strong foundations, clear pathways, and long-term career capabilities. Xbrain develops adaptable professionals ready to grow into future technology leaders.

Logo Guideline

02

LOGO GUIDELINE

2.1 Primary Logo

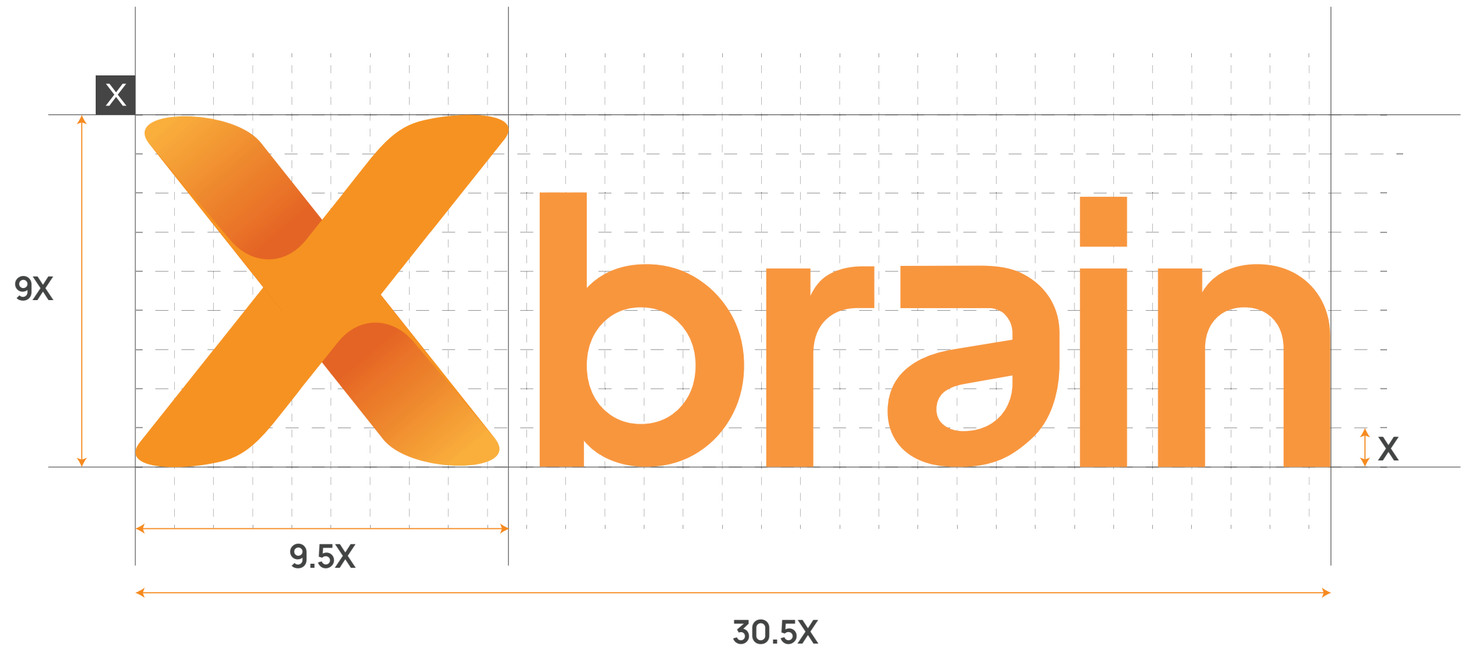

- The horizontal logo is the primary logo and should be used in most instances.
- Always use the logo files provided.
- Do not re-create.

Xbrain means Technology for User's Experience

LOGO GUIDELINE

2.2 Logo On Grid System

The grid system is an effective tool for controlling proportions and ensuring the accuracy of the logo. It helps the Xbrain logo remain consistent and precisely aligned when applied across different contexts, especially in large-scale environments and on various materials.

LOGO GUIDELINE

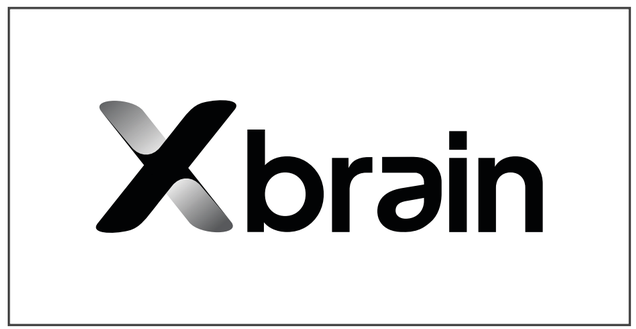

2.3 Logo Variations

Primary Logo

Positive / Negative versions

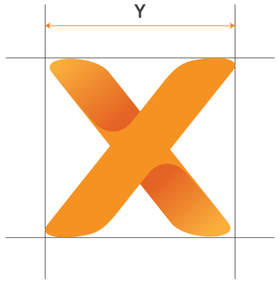

LOGO GUIDELINE

2.4 Safe Distance

The clear space refers to the area surrounding the logo. This must always be free of any text or graphic elements, ensuring that the logo is distinctive in any environment.

2.5 Minimum size

There is a specific logo for small sizes and should be used when the logo is rendered at 200px wide.

Digital: 200px x 58.6px
In print: 2cm x 0,44cm

LOGO GUIDELINE

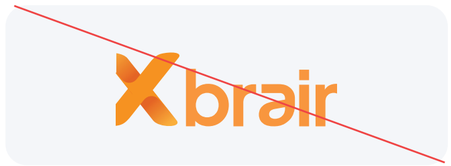

2.6 Logo misuse

Do not rotate the logo

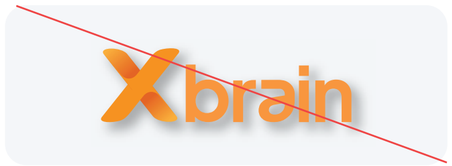

Do not change the color of the typeface

Do not crop or cut off any part of the logo

Do not add outlines or borders to the logo

Do not use drop shadows or any other effects

Do not distort the logo icon

Do not alter the positioning of the logo elements

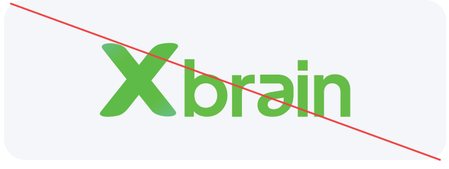

Do not reduce the logo's opacity

Do not convert the logo into a stroke-only version

Do not distort the logo

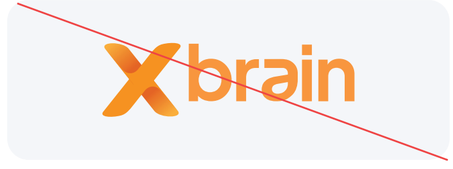

Do not change the logo colors to any colors outside the brand palette

Don't use the logo on a solid background with a similar tonality

Don't use the logo on pictures with a background with lots of details

Do not modify or shift the internal structures of the logo

Do not re-create using any other typeface

LOGO GUIDELINE

2.7 Logo On Colored Backgrounds

Defining how the logo is used on different background colors helps ensure consistency while enhancing visual impact across applications. This ensures maximum logo visibility and recognition. The usage is divided into three cases as follows:

1. Logo on the primary brand color background (Orange):
In this case, the logo should be used in its negative (reversed) version.

LOGO GUIDELINE

2.7 Logo On Colored Backgrounds

2. Logo on light-tone backgrounds such as white, pastel, or light colors:
The logo should be used in its primary color version.

LOGO GUIDELINE

2.7 Logo On Colored Backgrounds

3. Logo on dark-tone backgrounds such as dark, gray, or black:
The logo should be used in its negative (reversed) version.

LOGO GUIDELINE

2.8 Logo On Image Backgrounds

When it is necessary to use the logo on image backgrounds, **the primary color logo** should be applied. However, in special cases, the logo should be treated as follows:

- Convert the logo to its negative (reversed) version when placed on dark images.
- Convert the logo to its negative (reversed) version when placed within a brand color block.

LOGO GUIDELINE

2.9 Logo Usage with TechX and AWS Branding

Single Designation

Multiple Designations

- Immersion Day
- Solution Provider
- Select Tier Training
- Amazon Redshift Delivery
- Well-Architected Partner Program
- Generative AI Services Competency
- Cloud Operations Services Competency
- Data & Analytics Services Competency
- Migration and Modernization Services Competency

Squid ink border for use on white or light-colored backgrounds.

Amazon Orange border for use on black or dark-colored backgrounds.

Brand treatments depend on marketing scenarios (campaigns, events, communications, or initiatives) that can either be Xbrain-led or Co-branded.

Please pick the most appropriate logo usage for your scenario. If unsure, please contact Brand Marketing.

Reserved for use when AWS and XBrain have equal investment in and control over content, message, and/or customer experience, and AWS has provided written permission to co-brand, either through a logo usage agreement or approval through an AWS representative, following the AWS established process.

COLOR GUIDELINE

3.1 Main Colors

#F97C00	#FF8B2C	#FF991D	#FBCAAB
R: 249 G: 124 B: 0	R: 255 G: 139 B: 44	R: 255 G: 153 B: 29	R: 251 G: 202 B: 171
C: 0 M: 63 Y: 100 K: 0	C: 0 M: 56 Y: 90 K: 0	C: 0 M: 47 Y: 97 K: 0	C: 0 M: 23 Y: 31 K: 0

Psychology of Orange

Orange is a blend of the energy of red and the optimism of yellow. The orange tones in this palette feel **warm, friendly, and modern, conveying a sense of enthusiasm, creativity, and approachability.**

#425453	#B6B7B7	#D3D1CF	#FFFFFF
R: 66 G: 84 B: 83	R: 182 G: 183 B: 183	R: 211 G: 209 B: 207	R: 255 G: 255 B: 255
C: 73 M: 53 Y: 57 K: 33	C: 29 M: 23 Y: 23 K: 0	C: 16 M: 13 Y: 15 K: 0	C: 0 M: 0 Y: 0 K: 0

Psychology of Dark Teal & Neutral Colors

Rather than pure black, this palette features dark teal combined with neutral grays and white, creating a visual impression that is:

- Trustworthy and professional (dark teal)
- Calm, balanced, and refined (gray tones)
- Clean, open, and contemporary (white)

Design Applications

05

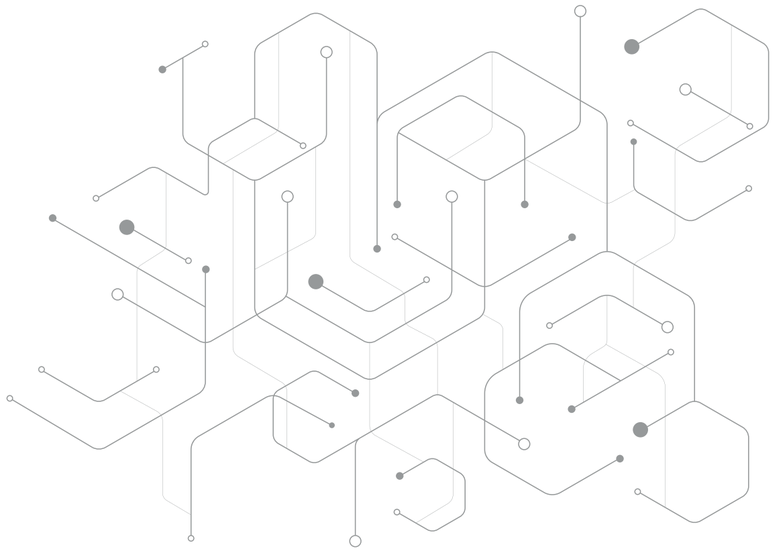

DESIGN APPLICATIONS

5.1 Patterns

Patterns are a key part of the brand identity and are used to support visual consistency across Xbrain materials. They may be applied to layouts, backgrounds, and brand applications to enhance recognition without distracting from core content.

Note: Patterns should be used with an opacity of below 30% to maintain visual balance.
